

computation rules for FERS apply to your retirement benefit.

§ 839.1103 If my qualifying retirement coverage error started when I should have been placed under FERS automatically, but my agency put me in CSRS because I had some past service, will I get a CSRS component in my FERS annuity for the service before the error if I elect FERS?

No, employees who should have been automatically placed in FERS (generally because they did not have 5 years of past service under CSRS rules) do not have a CSRS component in their future FERS benefit. All service must be treated as FERS service in this circumstance.

RETIREES AND SURVIVORS

§ 839.1111 If I elect to change my retirement coverage under the FERCCA, can I change the election I originally made at retirement for survivor benefits?

(a) Yes, if you elect to change your retirement coverage under the FERCCA, you will have an opportunity to change the election you made for survivor benefits.

(b) If you elect less than the maximum survivor benefit, your spouse's consent is necessary in accordance with § 831.614 or § 842.603(a)(1) of this chapter, as applicable.

§ 839.1112 If I elect to change my retirement coverage under the FERCCA, can I retroactively revoke the waiver of military retired pay I made at retirement?

Yes, you may retroactively change your decision regarding waiver of your military retired pay.

§ 839.1113 If I elect to change my retirement coverage under the FERCCA, can I change my decision about making a deposit or redeposit for civilian or military service?

Yes, you or your survivor will have a new opportunity to decide whether to pay any deposits or redeposits.

§ 839.1114 Will OPM actuarially reduce my benefit if I elect to change my retirement coverage under these rules?

Your annuity may be subject to three possible actuarial reductions under the FERCCA. These reductions may be required for an unpaid deposit (see § 831.303(d) and § 839.1116 of this chapter), for Government contributions in a TSP account (see § 839.1118), or for a previous payment of the Basic Employee Death Benefit (see § 839.1121).

§ 839.1115 What is an actuarial reduction?

An actuarial reduction allows you to receive benefits without having to pay an amount due in a lump sum. OPM reduces your annuity in a way that, on average, allows the Fund to recover the amount of the missing lump sum over your lifetime. The actuarial reduction becomes a permanent reduction in your benefit. The amount of the reduction depends on your age and the amount of the lump sum you would otherwise have to pay at that time. To compute an actuarial reduction, OPM divides the lump sum amount by the present value factor for your age at retirement.

§ 839.1116 If, because of the change in my retirement coverage, I will owe larger deposits for military and civilian service credit, will I have to pay the additional deposit due or will OPM actuarially reduce my annuity?

You can choose to pay the additional deposit amount. If you choose not to pay the deposit, OPM will actuarially reduce your annuity, as explained in § 831.303(d) of this chapter.

§ 839.1117 If I elect to change my retirement coverage under the FERCCA, can I get a refund of the service credit deposit I made and receive the actuarial reduction instead?

No, the FERCCA allows OPM to reduce an annuity by an actuarial reduction only for the deposit amount that remains unpaid.
